License Plate Holder Tape

Cross-border hits, passing the European Quality Test

High-end materials

We have plenty of experience in

European markets and our car license plate holder adhesive hook loop tapes are hot selling on every Amazon and supermarket in Europe.

We use 100% nylon or mixed nylon polyester material to make the license plate **always stick** on the car during high speed. Please do not use 100% polyester material or worse, to avoid accident caused by dropping.

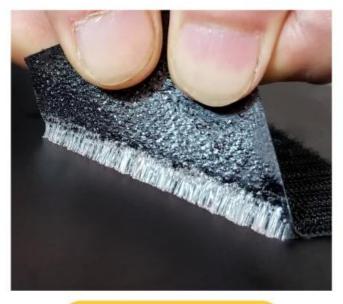

We use high-performance glue to ensure that the

HIGH-STRENGTH VISCOSITY and WATERPROOFNESS

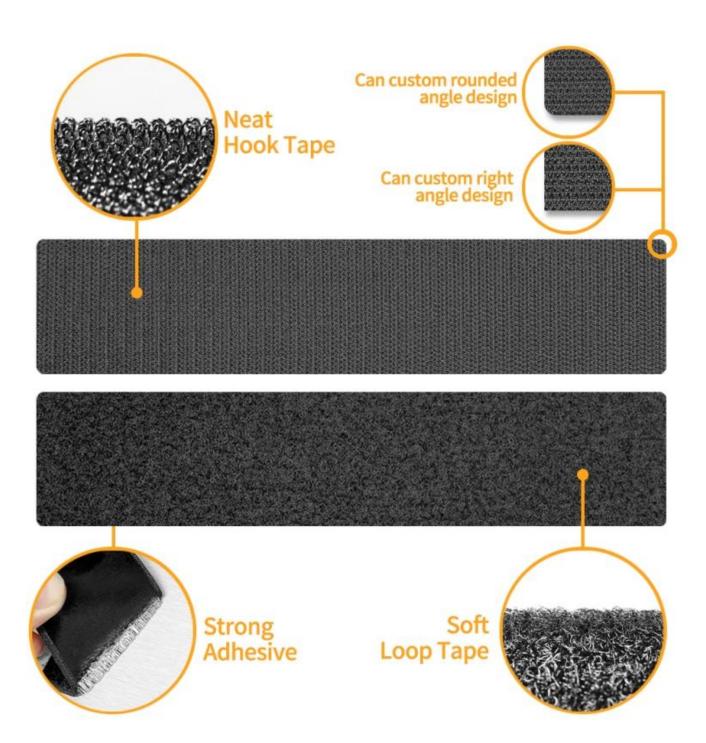

make the license plate stick to the car firmly in different environmental conditions.
