Our products

Other Supplier

hook: Orderly

hook: disorganized

Loop: Dense and thick

Loop: Sparse and messy

Both of them are Grade B hook and loop But pull test can be shown their different

After more than 100 times close and open, our hook and loop tape still keep the same. Because both hook and loop surface are nylon.

Another loop surfaces have been pulled apart, which greatly reduces the adhesion, because only the hook surface is nylon.
