## Our products

## Other Supplier

Loop:Dense and thick

Loop: Sparse and messy

**Both of them are Grade B hook and loop  
But pull test can be shown their differnt**

After more than 100 times close and open, our hook and loop tape still keep the same. Because both hook and loop surface are nylon.

Antoher loop surfaces have been pulled apart, which greatly reduces the adhesion, because only the hook surface is nylon.
