crush injuries

12% Sprain

8% Cuts

7% Traffic Accidents

5% Others

Each year it about
700,000 cases of accident
is caused by the collision
and extrusion.

Wall Guard For Baby Pressure Gates

The Wallguards lets you mount pressure gates to walls with baseboards which often create a smaller opening at the bottom of the gate than the top. The pressure pad's 5/8" thick well equalizes the distance at the top and bottom of the gate and the pad depth ensures a proper fit even when the bottom measurement doesn't require gate extensions but the top would. The oversized pad spreads pressure over a much larger surface area (over ten times the area of the safety gate's original pads) minimizing the possibility of damage to walls and making installation more stable. For use on top pressure spindle only. Not for use on Barrier Style Gates (Gates with no doorways)

Well fixed surface area

Usage

Distributes pressure over a wide surface area to help minimize damage to the wall

Installation

Easy & fast, no tools needed

A article show how to use baby safety pressure gates wall protector.

PRODUCTS DESCRIPTION

- **Product name** Wall guard for pressure gates
- **Color** ☐ White, ☐ Customize
- **Packaging** 2 pieces/pack, In blister, box or poly bag
- **Features**
 - Easy & fast installation
 - No-sliding rubber padding
 - Well fixed surface area
 - Matte face

SIZE

The correct way to use it.
